## Graduation Rates

The items in this section correspond to data elements collected by the IPEDS Web-based Data Collection System's Graduation Rate Survey (GRS). For complete instructions and definitions of data elements, see the IPEDS GRS Forms and Instructions for the 2017-18 Survey.

In the following section for bachelor's or equivalent programs, please disaggregate the Fall 2010 and Fall 2011 cohorts (formerly CDS B4-B11) into four groups:

- **Students who received a Federal Pell Grant\***
- **Recipients of a subsidized Stafford Loan who did not receive a Pell Grant**
- **Students who did not receive either a Pell Grant or a subsidized Stafford Loan**
- **Total (all students, regardless of Pell Grant or subsidized loan status)**

\*Students who received both a Federal Pell Grant and a subsidized Stafford Loan should be reported in the "Recipients of a Federal Pell Grant" column.

For each graduation rate grid below, the numbers in the first three columns for Questions A-G should sum to the cohort total in the fourth column (formerly CDS B4-B11).

## Aid Awarded to Enrolled Undergraduates

H1 Enter total dollar amounts awarded to enrolled full-time and less than full-time degree-seeking undergraduates (using the same cohort reported in CDS Question B1, "total degree-seeking" undergraduates) in the following categories. (Note: If the data being reported are final figures for the 2016-2017 academic year (see the next item below), use the 2016-2017 academic year's CDS Question B1 cohort.) Include aid awarded to international students (i.e., those not qualifying for federal aid). Aid that is non-need-based but that was used to meet need should be reported in the need-based aid column. (For a suggested order of precedence in assigning categories of aid to cover need, see the entry for "non-need-based scholarship or grant aid" on the last page of the definitions section.)

## Instructional Faculty

Please report number of instructional faculty members in each category for Fall 2017. Include faculty who are on your institution's payroll on the census date your institution uses for IPEDS/AAUP.

I-1 The following definition of full-time instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey (the part time definitions are not used by AAUP). Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

	Full-time	Part-time
(a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or predoctoral fellows	Exclude	Include only if they teach one or more non-clinical credit courses Include only if they teach one or more non-clinical credit courses
(b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status	Exclude	Include only if they teach one or more non-clinical credit courses
(c) other administrators/staff who teach one or more non-clinical credit courses even though they do not have faculty status	Exclude	Include
(d) undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like	Exclude	Exclude
(e) faculty on sabbatical or leave with pay	Include	Exclude
(f) faculty on leave without pay	Exclude	Exclude
(g) replacement faculty for faculty on sabbatical leave or leave with pay	Exclude	Include

**Full-time instructional faculty:** faculty employed on a full-time basis for instruction (including those with released time for research)

**Part-time instructional faculty:** Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

**Minority faculty:** includes faculty who designate themselves as black, non-Hispanic; American Indian or Alaskan native; Asian, Native Hawaiian or other Pacific Islander; or Hispanic.

**Doctorate:** includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science, and Doctor of Public Health in any field such as arts, sciences, education, engineering, business, and public administration. Also includes terminal

**medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), or law (JD).**

## Undergraduate Class Size

**I-3 In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2017 term.**

**Class Sections:** A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session.

Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

**Class Subsections:** A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course.

Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of course catalog cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2017. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

## Degrees conferred between July 1, 2016 and June 30, 2017

**For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and Bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g. students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.**

#### Criteria

**Institution's students graduate from programs that include sustainability as a required learning outcome or include multiple sustainability learning outcomes.**

**For this credit, learning outcomes at the course level count if the course is required**

**to earn the degree. This credit includes graduate as well as undergraduate programs. For this credit, "programs" include majors, minors, concentrations, certificates, and other academic designations. Programs that include co-curricular aspects may count as long as there is an academic component of the program.**

**The degree program does not have to include sustainability in its name to count for this credit. Environmental Studies programs, for example, count as long as the program covers the social, economic, and environmental dimensions of sustainability. A program that focuses exclusively on environmental or social issues, however, would not be sufficient to earn this credit.**

**Concentrations within a major (e.g. a concentration on sustainable business within the business major) do not count for this credit.**

It is measured from the exterior faces of exterior walls or from the centerline of walls separating buildings, or (for LEED CI certifying spaces) from the centerline of walls separating spaces. Excludes non-enclosed (or non-enclosable) roofed-over areas such as exterior covered walkways, porches, terraces or steps, roof overhangs, and similar features. Excludes air shafts, pipe trenches, and chimneys.

## ENERGY

### OP-8: Clean and Renewable Energy

#### Criteria

**Institution supports the development and use of clean and renewable energy sources using any one or combination of the following options.**

**Option 1: Generating electricity from clean and renewable energy sources on campus and retaining or retiring the rights to the environmental attributes of such**

**electricity. (In other words, if the institution has sold Renewable Energy Credits for the clean and renewable energy it generated, it may not claim such energy here). The on-site renewable energy generating devices may be owned and/or maintained by another party as long as the institution has contractual rights to the associated environmental attributes.**

**Option 2: Using renewable sources for non-electric, on-site energy generation, such as biomass for heating.**

**Option 3: Catalyzing the development of off-site clean and renewable energy sources (e.g. an off-campus wind farm that was designed and built to supply electricity to the institution) and retaining the environmental attributes of that energy.**

**Option 4: Purchasing the environmental attributes of electricity in the form of Renewable Energy Certificates (RECs) or other similar renewable energy products that are either Green-e Energy certified or meet Green-e Energy's technical requirements and are verified as such by a third party, or purchasing renewable electricity through the institution's electric utility through a certified green power purchasing option.**

**Option 5: Using cogeneration technologies to generate electricity more efficiently. Note: generating electricity using cogeneration technology and a renewable fuel, such as biomass, is considered Option 1 and should not be counted twice.**

**Since this credit is intended to recognize institutions that are generating new sources of clean and renewable energy, neither the electric grid mix for the region in which the institution is located nor the grid mix reported by the electric utility that serves the institution count for this credit.**

**Technologies that reduce the amount of energy used but do not generate renewable energy do not count for this credit. For example, daylighting, passive solar design, and ground-source heat pumps are not counted in this credit. The benefits of such strategies are captured by OP Credit 5: Greenhouse Gas Emissions Reductions and OP Credit 7: Building Energy Consumption.**

**Transportation fuels, which are covered by OP Credit 14: Campus Fleet, are not included in this credit.**

**To aggregate energy consumption data from multiple sources, figures should be converted into MMBtu (one million British thermal units – a standard measure of energy) using the following equivalents:**

**1 kWh = 0.003412 MMBtu**

**1 MWh = 3.412 MMBtu**

**1 therm = 0.1 MMBtu**

**1 kBtu = 0.001 MMBtu**

**1 ton-hour = 0.012 MMBtu**

**1 MJ = 0.000948 MMBTU**

## Fire Safety

***Information provided should be for the latest 12 month period for which data is available***

1. What percentage of your student housing sleeping rooms are protected by an automatic fire sprinkler system with a fire sprinkler head located in the individual sleeping rooms?

NOTE: A student housing sleeping room is defined as the actual room in which the occupants live and sleep.

Student housing can include typical residence halls, graduate student housing, married student housing or any housing that is under the control or affiliated with the school, such as private, third-party residence halls built under contract with the school. This does not include Greek housing.

28

%

2. What percentage of your student housing sleeping rooms are equipped with a smoke detector that is connected to a supervised fire alarm system?

**NOTE:** When the smoke alarm/detector is activated it must transmit a signal to a supervised location, initiating an immediate response by a staff member to investigate. This alarm does not necessarily activate the building fire alarm system.

57

%

3. How many malicious fire alarms occur in student housing per year?

**NOTE:** A malicious fire alarm would be defined as one where a building's fire alarm system is activated even though it is known that there is no emergency condition. For example, someone blows smoke into a smoke detector or a manual pull station is activated.

1

4. How many unwanted fire alarms occur in student housing per year?

**NOTE:** An unwanted fire alarm would be defined as one where a building's fire alarm system is activated by non-emergency conditions, yet the fire alarm system responds appropriately to stimuli that it interprets as a fire condition. For example, a smoke alarm that is located too close to a shower and is activated by steam, or is adjacent to a cooking area.

39

5. What percentage of student housing building fire alarm systems, if activated, result in a signal being transmitted to a monitored location, and security investigates before notifying the fire department?

42

%

6. What percentage of student housing building fire alarm systems, if activated, result in a signal being transmitted immediately to the fire department so they can begin responding?

0

%

7. How many students are trained in fire safety in campus provided housing each semester?

37

8. What percentage of RAs and housing directors receive fire safety training?

**NOTE:** For purposes of this question, housing staff will include only personnel such as resident assistants and/or resident directors who live in student housing.

100

9. How many contact hours of fire safety training is provided to students not living in student housing (i.e., off-campus, including Greek)?

**NOTE:** This will not include fire safety training provided to specialties such as laboratory assistants. This must be actual training with contact time and not include simply handing out brochures, fire safety articles in the student newspaper, etc. An example of contact hours would include fire extinguisher training that is provided to 30 students in one hour which would equal 30 contact hours.

0

10. How many regularly scheduled, supervised exit drills are held per year in student housing?

4

11. How many fires did your school experience last year in student housing?

**NOTE:** A fire must result in damage to the structure or contents.

0

12. What is the dollar loss related to fire that has occurred on your campus in residential housing?

NOTE: Dollar loss is direct property damage to the structure and contents and does not include costs such as alternative housing, staff response, etc

0

13. How many students have been injured by fires in student housing?

0

14. How many students have been killed by fires in student housing?

0

15. Does your school ban any of the following items or activities in student housing sleeping rooms?

NOTE: The "cooking" option excludes cooking done with school-approved/supplied appliances or in school-approved areas, such as kitchens.

- candles
- halogen lamps
- smoking
- cooking
- live christmas trees
- ceiling tapestries
- Other (please specify)

If you selected Other please specify:

16. Does your school require fire-resistance ratings on furniture (including, but not limited to, beds, mattresses, desks, and chairs) in student housing sleeping rooms?

No

17. Does your school require that furnishings brought in by the students have fire-resistance ratings?

No

18. How often are fire safety rules-compliance inspections conducted in your school's student housing?

NOTE: This refers to regularly scheduled, in-room inspections conducted by an inspector or trained individual who is knowledgeable about fire safety issues. It does not refer to a security officer making regular rounds. ALL of the rooms must be inspected during these inspections and checked for hazards.
